or with PT750 Professional Kit

➤ A professional digital breath alcohol screener with advanced testing features and wireless printing capabilities.

➤ Features the new *PT Core™* electro-chemical fuel-cell sensor and an advanced pressure scan sensor for reliable and accurate results.

➤ Advanced features and design make it a favorite for law enforcement, clinics, corrections, schools, and other settings where professional alcohol testing is performed.

AlcoHAWK® PT750

DIGITAL Alcohol Detector

AlcoHAWK®
PT750

The AlcoHAWK® PT750 is a professional breath alcohol tester complete with advanced testing features†, wireless printing capabilities and featuring the new *PT Core™* electro-chemical fuel-cell sensor, which is not subject to interference from acetone and offers greater linear accuracy and sensitivity than traditional semi-conductor testers. Its simple menu-driven operation allows you to quickly obtain an estimated screen for the presence of alcohol up to 0.400% BAC. Also features a large, easy-to-read orange back-lit LCD display, rechargeable battery and USB data port for easy download of test results. The AlcoHAWK® PT750 is the ideal unit for law enforcement roadside screening, corrections, probation officers, substance abuse clinics, boating, military, and many other areas of professional testing in which fuel-cell accuracy and reliability is required.

Features

- ✎ **PT Core™ electro-chemical fuel-cell sensor**
- ✎ **Simple and easy-to-use**
- ✎ **Lightweight and compact**
- ✎ **Adjustable blowing time**
- ✎ **Wireless printing (printer not included)**
- ✎ **Temperature monitor**
- ✎ **Multiple output conversions**
- ✎ **Test Counter *NEW!***
- ✎ **Test Memory *NEW!***
- ✎ **Countdown Timer *NEW!***
- ✎ **Air Blank Check *NEW!***
- ✎ **Password Protection *NEW!***
- ✎ **Passive and Manual Testing Modes *NEW!***
- ✎ **Rechargeable Battery *NEW!***
- ✎ **USB Data/Charging Port *NEW!***
- ✎ **Automatic Pump**

Specifications

Dimensions	4.75 in x 2.63 in x 1.1 in	Response Time	3 seconds ¹
Weight	4.2 oz (with battery)	Blowing Time	5 seconds ²
Housing	Shock resistant, molded plastic	Operating Temp	23 to 104° F (-5 to 40° C)
Power Supply	Rechargeable Lithium-Ion Battery	Detection Range	0.000-0.400% BAC
Battery Life	200 tests per charge ¹	Sensor Accuracy	±0.005% at 0.05% BAC ³
Sensor	<i>PT Core™</i> Electro-chemical Fuel-cell Sensor	Warranty	One Year Limited Warranty
Warm Up Time	10-20 seconds ¹		

1 Estimates, results may vary.

2 Default setting, professional kit adjustable from 3-8 seconds.

3 Read owner's manual before use to understand proper use, accuracy limitations, and calibration requirements.

4 This device is not to be used to determine if the subject is legal or able to operate any equipment or vehicle.

† The PT750 contains advanced testing features such as 1000 test memory and passive/manual testing modes.
